About me

I am Hanumant Vitthal Kshirsagar, a passionate Computer Engineering student skilled in Python, Java, C++, Data Analytics, AI/ML, Deep Learning, and full-stack development. I have experience exploring Machine Learning, Computer Vision, Data Processing, and modern web technologies. I enjoy analyzing data and building scalable solutions while actively participating in Hackathons and Ideathons to enhance my problem-solving skills.

Education

AISSMS Institute of Information Technology,
Pune-B.Tech. in Computer Engineering| **CGPA:9.09** — 2023-Present

Dada Patil College, Karjat, Maharashtra Higher
Secondary Certificate (Science) **| 82.18%** — 2022

Shree Chhatrapati Shivaji Vidyalaya, Veet, Maharashtra
Secondary School Certificate **| 94.80%** — 2020

Skills & abilities

Technical Skills: Python, Java, C++, SQL, Machine Learning, Artificial Intelligence, Deep Learning, Data Analysis

Web Development: HTML5, CSS3, JavaScript, React.js, Express.js

Databases: MySQL, SQLite, MongoDB

Data Analysis & Visualization: Pandas, NumPy, Excel, Matplotlib, Power BI, Tableau

Tools/Platforms: Git, GitHub, VS Code, Jupyter Notebook

Core Skills: Problem-Solving, Analytical Thinking, Communication, Teamwork, Adaptability

Major Projects

Environmental Intelligence Platform – HTML, CSS, JavaScript, Flask, AIML

- Real-time air quality monitoring using IoT sensors like DHT22 and MQ-135.
- Flask backend for data storage, analysis, and AI-based risk prediction.
- Live dashboard with alerts and admin monitoring system.

Online Fire Reporting System – HTML, CSS, JavaScript, PHP

- Allows users to report fire incidents online with location and details.
- Sends real-time alerts to fire departments and enables admins to track and manage reports.

Farmer Marketplace Platform – MERN Stack

- A web platform that connects farmers directly with buyers, removing middlemen.
- Farmers can upload products with price, location, and images, while buyers can view nearby items and place orders.
- Built using React, Node.js, Express, and MongoDB with role-based login (Farmer, Buyer, Admin).
- Includes cart system, order tracking, and admin dashboard for managing users and products.

Experience

- AI/ML Intern, Space Applications Centre (SAC), **ISRO**, Ahmedabad (Jun 2026 – present) Working on AIML, Deep Learning and Computer Vision techniques for satellite image processing.
- Infosys Springboard Internship Program: Completed industry-oriented training in Web Development. Worked on real-world projects and improved problem-solving and technical skills.

Position Of Responsibility

- Technical Head, National Service Scheme (NSS)(2025 – Present): Led technical activities and coordinated volunteers for social and community initiatives.
- Discipline & Security Coordinator, CESA (Computer Engineering Students Association))(2025 – Present): Organized events and ensured discipline, security, and smooth execution of activities.
- Member, ACM Student Chapte)(2025 – Present)r: Actively participated in technical workshops, coding events, and professional development.

Achievements/Extracurricular Activities

- Selected for AI/ML Internship at Space Applications Centre (SAC), **ISRO**, Ahmedabad (2026).
- Selected for Paid Internship at Centre for Artificial Intelligence and Robotics (CAIR), **DRDO**, Bengaluru (2026).
- Design Patent (Filed) —Farm Monitoring Ai-Machine, Registered Design No. 476772-001, Indian Patent Office (Feb 2026)
- Smart India Hackathon — Top 10 / 160+ teams .
- National level Techthon3.0-Runner-up in Environment Domain.
