Hanumant Kshirsagar

Pune, Maharashtra | +91 9529631909 | kshirsagarhanumant388@gmail.com | Portfolio |*LinkedIn* | *GitHub*

Professional Summary

Computer Engineering student (CGPA 9.09) skilled in Python, Java, C++, AI/ML, Data Analytics, Full-Stack Development and modern web technologies.Intern at SAC, ISRO, with experience in satellite image processing using Deep Learning and Computer Vision. Enjoys building scalable, data-driven solutions and actively participates in Hackathons and Ideathons to enhance problem-solving skills.

Education

- **AISSMS Institute of Information Technology** — Pune, Maharashtra
  B.Tech. in Computer Engineering | CGPA: 9.09 — *2023 – Present*
- **Dada Patil College** — Karjat, Maharashtra
  Higher Secondary Certificate (Science) | 82.18% — *2022*
- **Shree Chhatrapati Shivaji Vidyalaya** — Veet, Maharashtra
  Secondary School Certificate | 94.80% — *2020*

Technical Skills

- **Languages & Core**: Python, Java, C++, SQL, Machine Learning, Artificial Intelligence, Deep Learning, Data Analysis
- **Web & Databases**: HTML5, CSS3, JavaScript, React.js, Express.js, MySQL, SQLite, MongoDB
- **Data Analysis & Visualization**: Pandas, NumPy, Excel, Matplotlib, Power BI, Tableau
- **Tools & Platforms**: Git, GitHub, Vercel, Linux

Experience

- **Space Applications Centre (SAC), ISRO** — Ahmedabad, Gujarat
  AI/ML Intern — *Jun 2026 – Aug 2026*
  - Working on AI/ML, Deep Learning and Computer Vision techniques for satellite image processing.
- **Infosys Springboard Internship Program**
  Intern – Web Development
  - Completed industry-oriented training in Web Development, working on real-world projects and strengthening problem-solving and technical skills.

Projects

- **Environmental Intelligence Platform**
  Tech Stack: HTML, CSS, JavaScript, Flask, AI/ML
  - Real-time air quality monitoring using IoT sensors integrated with a microcontroller.
  - Flask backend for data storage, analysis and AI-based risk prediction; live dashboard with alerts and an admin monitoring system.
- **Online Fire Reporting System**
  Tech Stack: HTML, CSS, JavaScript, Python, Django
  - Allows users to report fire incidents online with location and details.
  - Sends real-time alerts to fire departments and enables admins to track and manage reports.
- **Farmer Marketplace Platform**
  Tech Stack: MERN Stack (MongoDB, Express.js, React, Node.js)
  - Web platform connecting farmers directly with buyers, removing middlemen; farmers upload products with price, location and images, and buyers view nearby items and place orders.
  - Role-based login (Farmer, Buyer, Admin) with cart system, order tracking and an admin dashboard for managing users and products.

Positions of Responsibility

- **Technical Head, National Service Scheme (NSS)** (Aug 2024 – Jul 2026): Led technical activities and coordinated student volunteers for community service initiatives.
- **Discipline & Security Coordinator, CESA** (2024 – 2026): Organized events, maintained discipline, and ensured smooth execution..
- **Member, ACM Student Chapter** (Aug 2025 – Jul 2026): Participated in technical workshops and coding events..

Achievements & Extracurricular Activities

- Selected for Paid Internship at Centre for Artificial Intelligence and Robotics (CAIR), DRDO, Bengaluru (2026).
- Design Patent (Filed) – Farm Monitoring AI-Machine, Registered Design No. 476772-001, Indian Patent Office (Feb 2026).
- Published 2 research papers in AI/ML and satellite image processing.
- Smart India Hackathon – Top 10 among 160+ teams; National level Techthon 3.0 – Runner-up in Environment Domain.
